One hundred twenty-eight books have been added by purchase during the year, among them the Stoddard Lectures; although they were more expensive than some of the books placed on the shelves, they have proved very satisfactory, and the money seems to have been profitably expended.

Mr. M. F. Little has again remembered the Library with fifty bound volumes of Harper's, a very acceptable gift.

Respectfully submitted,

M. L. WHEET, LIBRARIAN.

REPORT OF BOARD OF EDUCATION.

The School Board during the year just past have labored for the best interests of the town in the matter of furnishing the best teachers to be procured, and to keep up with the times in regard to supplying the schools with the best books, charts, and other appliances deemed necessary in an up-to-date school room. In the selection of new teachers, we depend largely on the references furnished, mostly by well-known educators, and we believe we have been fortunate in that respect the past year. With the earnest sympathy and help on the part of parents, for the teacher, and a more careful supervision by them in regard to a regular attendance by their children, the efficiency of the school would be improved, and the progress made much greater. Let us hope that all will make an earnest effort to help on the good work in the interest of those in their charge, the coming year.

During the past year the Village school was divided by placing the higher grade in the upper room of the building, which was furnished with single desks and seats, at an expense of about \$90. We think this sum well spent, on account of the greater advantages given both schools by the change. A small amount was expended in other repairs, which may be found in the financial report.
